Snell Road overpass in Winnebago County to open today

One-year project cost \$3.9 million

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing the newly constructed Snell Road overpass of US 41 will open to traffic by the end of the day Monday, August 2.

The \$3.9 million project began in July 2009 and was funded through the U.S. government's American Recovery and Reinvestment Act. Improvements included the new grade separation over US 41 connecting Fountain Avenue on the west to Snell Road on the east, raising the grade of Snell Road and Green Valley Road, and the addition of accommodations for pedestrians and bicyclists.

As a result of the project Fountain Avenue to the west of US 41 has been renamed Snell Road, and the section of Snell Road heading north from Fernau Ave has been renamed Walter Street. A new controlled intersection has now been created east of US 41 at the juncture of Snell Road and Walter Street.
